SUPALYX®

High Energy and Protein

A high energy and protein feed and mineral bucket for cattle and sheep on either grazing or conserved forages.

Features & benefits:

- Protein supplied from both natural sources and urea to help complement grazing and conserved forage (silages) to support feed digestion and animal performance.
- Good levels of energy from fermentable (sugar) and protected (fat) sources to help support optimal body condition score, growth and milk production.
- Includes protected zinc for cattle and sheep at risk of lameness and mastitis.
- Balanced mineral, vitamin and trace element supply to complement potential deficiencies in forages.

Ideal for:

- Breeding ewes after tupping throughout the mid-pregnancy period.
- Breeding and growing cattle from mid-summer onwards throughout winter where no extra copper is required.
- Mixed grazing situations.

User guide:

- Offer free-access at a ratio of one 22.5kg bucket per 35 head of sheep or 15 head of cattle, or one 80kg tub per 90 head of sheep or 50 head of cattle.
- Ensure ad-lib forage is always available.
- Do not feed to cattle and sheep under 3 months of age.

Typical intakes:

- Cattle up to 500g/head/day#.
- Sheep up to 150g/head/day#.

Product Specification:

Crude protein %	15
Urea %	2
Crude fat %	11
Crude ash %	26
Energy (MJ ME/kg DM)	13
Typical sugar (as sucrose) %	22
Calcium %	6
Phosphorus %	0.6
Magnesium %	3
Sodium %	2
Selenium mg/kg	5
Cobalt mg/kg	5
Iodine mg/kg	30
Manganese mg/kg	400
Zinc* mg/kg	800
Vitamin A iu/kg	40,000
Vitamin D ₃ iu/kg	8,000
Vitamin E iu/kg	200

*Includes protected zinc

Consumption will be influenced by number of feed points per head of stock, forage availability and quality, other feeds available, age and breed of stock and proximity to water sources.

Spec number 2.3
