**Powerful chlorine free
alkaline detergent**

OCTAKLEAN

Powerful chlorine free alkaline detergent

ADVANTAGES

- Strong detergent properties
- Combination of hydroxides
- Environmental profile : free of chlorine, EDTA, phosphorus and surfactants easily biodegradable*
- Anti-scaling and anti-foaming agents
- Efficient in case of hard water

EQUIPMENT CLEANING

- OCTAKLEAN is a powerful detergent formulated for cleaning the milking machine and the milk tank : combination of caustic soda and caustic potash with surfactant mix to perform in case of high cleaning performance requirements
- OCTAKLEAN contains anti-foaming agents and anti-scaling agents and is effective in hard water areas

DIRECTION FOR USE

AUTOMATIC USE : circulation

- After milking, rinse with clean and warm water.
- Circulate the solution containing 0,7% of OCTAKLEAN for 10 minutes (recommended depart temperature 70-75°C ; recommended finish temperature 50-55°C).

In case of cold water conditions usage, prepare a solution of OCTAKLEAN at 1%.

- Rinse with clean and cold water.

MANUAL USE : brushing and dipping

- After milking, rinse with clear and warm water.
- Prepare the OCTAKLEAN solution at 0,7% (recommended temperature 70-75°C)
- After brushing, leave the solution in contact with the equipment for 5 minutes.
- Rinse with clean and cold water.

Alternate OCTAKLEAN with a disinfectant acid : HYPRACID ONE

MAIN COMPONENTS

Caustic soda, caustic potash, surfactants, anti-foaming, anti-scaling agents
